Brief

I'm a full-stack developer with 3+ years of experience building practical, production-grade products. I work with Go, TypeScript, Nextjs, and Nestjs, along with both SQL and NoSQL databases. My background spans real-time multiplayer games, payment platforms, microservices, event-driven systems, and cloud infrastructure(DevOps). I build reliable applications from database to UI, and I enjoy shaping ideas into working software.

Skills

Fullstack SASS | Go | Typescript | Node.js | NestJS | python

Professional Experience

10/2025 – 07/2026 Addis Ababa	Pioneer Labs Game Engine Developer Go, gRPC, WebSockets, Redis, PostgreSQL, RabbitMQ, Docker Swarm, AWS EC2, Prometheus, Traefik
01/2025 – 10/2025 Remote, USA	Backend Developer <i>Zagaol - Lifestyle Fulfillment Startup</i>  NestJS Kafka TypeORM Event-Driven Architecture PostgreSQL
10/2025 – 01/2026 Remote, USA	Eaglepoint AI https://eaglepoint.ai/ AI: LLMs Prompt Engineering Model Evaluation Data Labeling Workflow
01/2024 – 06/2024 Addis Ababa, Ethiopia	Backend Developer - Intern <i>SantimPay</i> During my internship, I worked on several Backend development projects, gaining hands-on experience with modern technologies • Resturant Menu Management System – Developed and maintained a vuejs -based user interface for a comprehensive Resturant platform. and Worked on backend development of a scalable online payment system using Go Go (Echo), REST APIsPostgreSQL, Redis (Vue.js) Microservices, Docker, Kubernetes, NginxJWT, OAuth2, HTTPS/TLS Payment APIs, Webhooks AWS

Education

06/2021 – 07/2025 Harar, Ethiopia	Software Engineering <i>Haramaya University</i> Completed a comprehensive curriculum in software engineering, covering core principles and practical applications.
